SPECIALTY LUBRICANTS

## DRI-MOLY

**Premium/Quick Curing Dry Film Lubricant**

**Cures Quickly**

**Resists Contaminants**

**Prevents Wear/Friction**

**Prevents Rust/Corrosion**

**Dry Film EP Chemistry**

**Spray "Any Way" Can**

*"In extremely loaded applications or high contamination areas, there is simply no alternative to DRI-MOLY. The time and cost savings are tremendous. For those battling build-up on chains, this is the solution."*

Molybdenum Disulfide has emerged as the premier dry film lubricant due to its remarkable ability to prevent wear and reduce friction. Traditional moly lubricants are designed with moly being added to a grease or oil such as Royal's ULTIMA 3100 w/ Moly or MOLY CHAIN OIL. However, certain applications are not conducive to traditional lubricants. A perfect example of this are chain or slide applications where air born contaminants such as wood, dust or grains are present. By utilizing the superior lubrication and extreme pressure characteristics of DRI-MOLY, protection is provided without the unwanted build up to components. DRI-MOLY will always perform better when application surfaces are free of contaminants.

# ***DRI-MOLY***

## **Product Specifications**

Specific Gravity	.81
Pounds Per Gallon	6.72
Dry to Touch at 77°F.	10 Minutes
Cure Time at 77°F.	2 Hours
Molybdenum Disulfide	3.0% Minimum
Color	Silver/Gray

DRI-MOLY is ideal for a wide variety of normal and unusual applications:

- Chains, Gears, Hinges
- Automotive and Industrial Gaskets
- Maintenance Lubrication
- Dies, Threads
- Rubber Moly Release Compound
- Gear Sliding Surfaces
- Engine Assembly
- Drawing, Piercing, hole Extruding
- Conveyors, Couplings, Belts, Pulley's

Shake Well before using. Hold can 6 to 8 inches from surface and apply even, thin coats. Allow 1 to 5 minutes for adequate drying. The concentration of solids in this product may clog nozzle. Shake vigorously and often. Before storing, turn can upside down and spray until nozzle is clear.

Sharing lubricant knowledge and delivering the highest quality products, two things we promise our customers. The difference will change how you view, purchase and utilize greases and oils from here forward.
